

We are celebrating

Creating a card digitally

In this unit you will:

- 1 Look at cards. Think about your card.
- 2 Use the keyboard.
- 3 Write and edit the text for your card. Save it.
- 4 Create the image for your card. Save it.
- 5 Finish your card. Make it even better!
- 6 Look at all the cards. Talk about them.

Microsoft Computing RESKILLS

Working at Age Expected		Working at Greater Depth	
Enter text for their card and understand how to use the keyboard to enter non-alphabetic characters		In addition, appreciate the need for efficient and accurate typing; check own text is typed correctly; make well-judged modifications; and begin to understand how files are stored on a computer network.	
Find appropriate images using a search engine			
Combine text and an image to make a greetings card			
Modify and edit text and images to personalise them			
Think about the relative merits of printed greetings cards and e-cards
